

# Who is Tether Tools®

We are a design and manufacturing company offering integrated workflow solutions and physical workstations that help creative professionals integrate the latest technology into their daily lives. We design gear that helps photographers and filmmakers integrate computers, laptops, monitors, phones and other advanced technology into their work. Providing solutions that enhance productivity, improve efficiency and increase safety for people and equipment is what we do best. Whether shooting tethered, setting up a portable workstation, mounting an iPad as a teleprompter or showing your work to the masses on the big screen, Tether Tools' strives to provide the highest quality solutions available.

*"My clients want to see the work as I'm shooting on location. My Tether Tools gear elevates my professional approach and helps me communicate better with everyone on the shoot."*

## Made in the USA & Lifetime Warranty

We proudly design and manufacture the majority of our products in the U.S.A. using only the finest materials. We strive to support local business and innovation and to foster the work of creative professionals worldwide. And we back most of our products with a lifetime warranty.

# Tether Table® Aero System

The TetherTable Aero was conceived by professional photographers and designed by aerospace engineers to meet the needs of not just photographers, but all creative individuals looking for a portable table and tethering solution. Made completely of T6 aero space aluminum, the stunning brushed silver or non-reflective black textured platform is sleek in design and unsurpassed in stability and durability. Featuring the state-of-the-art LAJO-4 ProBracket, Tether Tables fit perfectly on all standard lightstands and tripods.

# LAJO-4 ProBracket

Every Tether Table Aero System in the series features a LAJO-4 ProBracket that allows photographers to use any existing tripod, light stand, arm or clamp to support the Tether Table and laptop. With built-in receptors for tripods, ball heads, studio stud pins and even an Arca-style quick release plate receptor, setting up a workstation in any location is easy.

## Tether Tools Pro - Joe McNally

*"We always had a tough time with tethered operation until we started using Tether Tools. The table is the answer to our needs for traveling. It is virtually unbreakable and lightweight...a great solution on location."*

# Aero for iMac

The Tether Table Aero iMac allows photographers, videographers and creative professionals to easily incorporate an Apple iMac or Cinema Display into their studio or location shooting workflow. The Aero for iMac provides a stable and secure solution for professionals seeking a portable workstation for their iMac.

The table features a SecureGrip Stability Bar across the top of the platform, to hold the iMac base in place. Simply slide the base under the Stability Bar and tighten to ensure a secure hold. The SecureGrip and Aero Platform are both lined with high-grade, non-slip padding to create a tight fit and protect the monitor from slipping or scratching. For alternate use, simply remove the stability bar for use as a laptop platform.

# Simple Design, Impressive Function

*Tether Tools ensures your gear is where you want it, when you need it.*

# Vu Monitor Mounts

The Vu Monitor Mounts provide a streamlined way to mount monitors on locations for things like, weddings, workshops and events. Engineered and manufactured in the U.S.A. Vu Monitor Mounts are backed by Tether Tools Lifetime Warranty.

## Studio Vu

The Studio Vu Monitor Mount is designed to hold monitors up to 85lbs on any studio or light stand. Utilizing the 5/8" Baby Junior pin commonly found on studio support equipment, the Studio Vu allows for easy monitor integration into any set-up. The integrated TruVu Technology on the brackets' pivotal arm ensures a stable mount and prevents any movement or sagging of the display over time. When not in use, the Studio Vu arm folds flat against the back of the monitor for easy transport.

The Vu Monitor Mounts include the 75x75 and 100x100 VESA mounting options. Additional adapters are available.

Monitor Mounts:	SKU:	Extender Plates:	SKU:
Studio Vu	STDVU	200 x 200 Adapter	VADPT200
Local Vu	LOVU	400 x 200 Adapter	VADPT400
Go Vu	GOVU	400 x 400 Variable Adapter	VADPTUNL

## Local Vu

The Local Vu monitor mount is designed for the creative professional looking for a streamlined way to mount small to medium size monitors on studio stands, tripods and arms. With multiple mounting options, this lightweight and versatile solution is ideal for location photography, small studio monitors and more.

## Go Vu

The Go Vu monitor mount offers a lightweight and travel-friendly monitor mounting solution for mounting a small to medium size monitor to any tripod. With both a 1/4"-20 thread as well as a built-in Arca-style plate, this mount offers options for mounting monitors on location, for photo booth setups, presentations and much more!

## Photo Booth Setup

# iPad & Tablet Mounting Solutions

The Wallee iPad System by Studio Proper offers the most complete iPad and tablet mounting solution for tablet users. The Wallee iPad and tablet cases are designed with a rotation-based locking X system that securely mounts the tablet to the many Wallee accessories. The super-thin design is molded for a secure fit on each tablet, keeping cameras, buttons, speakers and ports easily accessible. From studio to location photo shoots, then home or off to a cafe, the Wallee system has an iPad or Tablet mount or stand ideal for any environment.

Tether Tools Connect & Connect Lite Bracket integration with Wallee Cases brings this robust system into the photo and film workflow, enabling mounting of iPads and tablets for use in any creative profession.

# Wallee System Accessories

Each accessory built for the Wallee system is designed for working professionals, kids and everyone in between. These simple to use, smartly designed products will help integrate the iPad / tablet into the workflow in a very elegant manner. The possibilities are endless with each of these accessories when paired with the Wallee Cases.

3 Handstrap	WHAND
4 Pivot Stand	WPIVOT
5 Headrest	WHEAD
6 Glove	WGLOVE
7 Wall Disk Mount (Black or White)	WDSKWHT WDSKBLK
8 VESA Plate (Requires Wall Disk)	WVESA

## Did You Know?

The TabStrap featuring Black Rapid includes a Connect Lite bracket – for wearing & tripod mounting of iPads / tablets.

# Connect & Connect Lite

Tether Tools brackets for the Wallee System make virtually any tablet mounting configuration possible. The Connect Bracket is the most versatile and durable tablet mounting solution available for photographers and cinematographers.

The Connect features four receptors (1/4"-20, 3/8", 5/8" & Arca Style) to easily mount iPads and tablets to any tripod, light stand, clamp, arm or versatile support attachment used in photography or film.

The Connect Lite features two 1/4"-20 receptors and offers limitless options for mounting a tablet just about anywhere imaginable. With dual 1/4"-20 threads, on the center back, and the outer edge, the Connect Lite mounts a tablet to tripods, arms and clamps for ideal viewing and use in all photo, film, leisure, utility and entertainment uses. Take the Connect Lite from work to car to home to play and even travel with a few Tether Tools Rock Solid (pg18) accessories and literally use the iPad anywhere.

WZADPT

With Connect or Connect Lite, the Wallee System is the most versatile iPad mount for photo / video use.

# Look Lock®

## Smart Phone Mount

Capture the attention of a children, or pets, record video while shooting stills, use phone as a teleprompter – the Look Lock makes it possible. The Look Lock is a camera-mountable universal smart phone holder with an articulating arm for mounting small devices up to above your lens or camera body. The Look Lock can hold any device up to 3" in the spring-loaded SmartClip (featuring non-skid pads) to hold the object in place.

### Specifications:

- > *Constructed of lightweight durable aluminum*
- > *Engineered to remain stable as the camera is jostled and rotated*
- > *Backed by Tether Tools Lifetime Warranty*

Product:	SKU:
Look Lock 7" (18cm) Arm	LL307
Look Lock 11" (29cm) Arm	LL311
SmartClip*	LL229

\* The Look Lock includes the SmartClip, arm and hotshoe mount. The SmartClip can be purchased separately as well.

# StrapMoore®

The StrapMoore is a handy contraption that secures to the leg of any tripod, light stand, pole, beam, table, chair and much more. The StrapMoore's interior GripperElastic straps enable just about anything up to 3" (7.62cm) in diameter to be secured to a tripod, light stand or boom for easy access while shooting. Use it to secure a laptop power brick, charger, phone, off-camera flash, transmitter/receiver, microphone, battery, external hard drive or anything else that's handy to have nearby during a photo or video shoot.

The StrapMoore Extender enables larger items, up to 5.5" in (14 cm), to be mounted in the device.

Product:	SKU:
StrapMoore	SSMRST
StrapMoore Extender	SSMREX

## Tether Tools Pro - Brad Moore

*The StrapMoore was designed to keep the power brick for my laptop attached to the tripod or stand. Not only does it do this, but it's also versatile enough to use with anything, from a water bottle to PocketWizards or any number of things that are normally hanging or sitting in an inconvenient place. Just strap one side to whatever you want to use, then secure whatever to the other side!*

Rock Solid®

## Arms + Clamps + Grips

Tether Tools Rock Solid® premier line of arms, clamps, grips and adapters are designed to allow endless possibilities for mounting photo, film and audio gear. Each of these products have a rugged design and are lightweight. Many of the products are also proudly manufactured in the U.S.A.

The Rock Solid® line of product allows you to virtually mount your gear to many types of surfaces, both big and small.

# TetherPro Cables

## USB 2.0 & 3.0, FireWire, Mini-HDMI, HDMI & CAT

TetherPro USB cables are premium quality and designed for high capacity photo transfer at fast speed while shooting tethered. Gold plating and ferrite cores reduce noise and signal errors for the most reliable tethering experience. Available in high-visibility orange or black.

TetherPro offers FireWire cables designed with a low profile casing to fit most digital backs. TetherPro FireWire reduces radio frequency and electromagnetic interference.

The Mini-HDMI & HDMI TetherPro Cables offer all-in-1 high-definition AV connection. Available in a variety of lengths, they are ideal for viewing photos and HD video on an HDMI-compatible TV or monitor.

## Tether Tools Pro - Peter Hurley

"I'm big on keeping a shoot moving, and having my FireWire cables fall out of camera throws me off. I haven't experienced that problem since I discovered Tether Tools. Now the JerkStopper goes everywhere and you won't catch me shooting without it."

# JerkStopper®

## Cable Management Devices

Cables and power cords have a tendency to dislodge from cameras and computers due to normal movement and activity. To avoid damage and costly repairs, JerkStopper® Cable Management Devices offer the ideal solution for tethering with USB, FireWire, HDMI or flash sync cables (3.5-8.5mm). The patented JerkStopper cable retention device provides an anchor point allowing slack in the cord preventing damage or dislodging. The Camera Support has a quick-release feature that protects the camera in the case of extreme jerking.

## Thread Mount Clamps

The JerkStopper® Thread Mount can be used on its own for securing cables to devices with a 1/4"-20 receptor. It also pairs very well with Tether Tools Rock Solid Clamps and offers additional cable management options on photo and film shoots. With any of these clamp options, cables can be raised off the ground and secured for optimal safety and equipment protection. Each device comes with clamp and ThreadMount JerkStopper combination.
